Seed Department.—This is in charge of trained experts, and whether your wants may be in Flower, Vegetable, or Agricultural seeds, you may be sure to get only the choicest.

Plant Department.—Our stock of decorative plants is now very complete in a full line of sizes, from small seedlings for growing on to specimens of the most useful decorative sizes. The plants are all in a clean, healthy, vigorous condition, thrifty and well grown, and will compare favorably with stock distributed by us in previous seasons. Whenever possible, we solicit a personal inspection of our stock. Our nurseries at Riverton, N. J., are within easy reach from either Philadelphia or New York, and something of interest will always be seen.

A time card of trains, with directions how to reach the nurseries, will be mailed to anyone applying.

Low Express Rates on Plants, Bulbs and Seeds.—We are shipping by express lines to all parts of the country, goods packed in closed boxes at a reduction of 20 per cent. from regular rates of merchandise. Prepaid 4-pound packages of seeds, plants and bulbs are carried to California and all distant points for 30 cents each.

By our careful and thorough system of packing, we **Guarantee Safe Delivery** of Plants and perishable goods, when ordered to be sent by **Express**, and we always ship this way unless we have positive instructions to the contrary.

Plants and other perishable goods, when sent in any other way, are solely at Purchaser's Risk.

Prices.—This list cancels all previous offers. The prices quoted in this list are net, and subject to no discounts. All orders from the trade will be priced according to this list. Articles offered in our Retail Catalogue and not offered in this list will be supplied at retail prices, less the following discounts, viz: Vegetable Seeds in packets, Flower Seeds, Bulbs and Plants, 33 1/2%; Small Tools and Insecticides, 10%; Lawn Mowers, 5%.

Terms of Business. 1. Unknown correspondents desiring to open an account, will please furnish satisfactory reference, otherwise cash must accompany order.

To parties of approved credit all bills will be due and payable Ninety (90) days after date of invoice.

2. Remittances should be made by Post-Office Money Orders, Drafts on New York or Philadelphia banks, or Express Money Orders. Where it is not possible to obtain these, the letter should be registered. We cannot guarantee receipt of money sent in any other way.

3. Goods desired C. O. D. must be accompanied by a partial remittance to guarantee acceptance.

All goods are offered subject to being unsold on receipt of order, and we reserve the right to advance prices without notice.

4. No charge is made for boxes or packing, nor for delivery to Freight Depots or Express Offices in Philadelphia. 5. Always give **Shipping Directions**, and write **Name and Address Distinctly** on each and every order.

Warranty.—We wish it to be distinctly understood, that although we continue to take all possible pains to supply only new, genuine and unadulterated Seeds, Plants and Bulbs, we still give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any of the Seeds, Plants or Bulbs we send out, and will not be in any way responsible for the crop. Every order received for articles named in this Catalogue will be executed on these conditions only.

DREER'S RELIABLE FLOWER SEEDS

We give close attention to the Flower Seed department of our business, which is probably the largest in quantity and variety in this country. Our constant aim is to procure the very best strains obtainable, both of home and foreign growth, and we spare no pains or expense with this object in view. We call special attention to our choice strains of Asters, Cineraria, Carnations, Calceolaria, Cyclamen, Gloxinia, Pansy, Petunia, Primula, etc., which are acknowledged by leading growers to be superior in all respects. Our trade packets contain a liberal supply. Where smaller quantities are wanted, buyers can select from retail catalogue at a discount of one-third.

We again call special attention to our stock of Palms, which is the largest and most complete in the country, especially in the varieties and sizes used in the general florist trade. Our stock of Kentias alone occupying over one and a half acres of glass, and all other popular varieties being on hand in proportionate quantities.

SPECIAL NOTICE. Our measurements of plants, where given, as in the case of Palms, etc., etc., means the height of **the top of the pot to the top of the plant in its natural position.** We make this explanation of our way of measuring, as many growers contend that the proper measurement is from the bottom of the pot to the tip of the longest leaf, and make their offers in that way.

Caryota Sobolifera.

2 1/4 -inch pots, \$1.00 per doz.; \$8.00 per 100.

KENTIA BELMOREANA.

Kentia Belmoreana.

We call special attention to the 2¼ and 3-inch pot sizes; they are extra fine, pretty, graceful plants, and will make good substitutes for Cocos Weddeliana for centres of Fern dishes, etc., during the present scarcity of that variety.

FINE FERNS

Varieties of Special Merit

FOR GENERAL COLLECTION OF FINE FERNS, SEE NEXT PAGE.

Alsophila Australis.

We have again this season a fine supply of this useful, quick-growing Australian Tree Fern, and offer strong

2 1/4 inch pots,	\$1.00 per doz.;	\$8.00 per 100.
3 " " "	1.25 " "	10.00 " "
4 " " "	2.00 " "	15.00 " "
5 " " "	3.00 " "	25.00 " "

Aspidium Tsussimense.

Without question the most valuable of all Ferns yet introduced in this country; of strong but dwarf and graceful habit; of good growing habit; of better keeping quality than any other Fern we know. We have been able to offer this variety only in limited quantities, but this season our stock consists of nearly 60,000 plants, and we are therefore able to quote it at a popular price.

2-inch pots,	\$4.00 per 100;	\$35.00 per 1000.
3 " " "	6.00 " "	50.00 " "

Asplenium Bulbiferum.

This variety is but rarely seen in this country, but is grown in large quantities in Europe, especially in England, where it is considered one of the most important Ferns for house decoration; it is a most valuable variety to grow into 5 or 6-inch pot plants. We offer good

4-inch pots,	\$1.25 per doz.;	\$10.00 per 100.
--------------	------------------	------------------

Cibotium Schiedei.

This is undoubtedly the finest of all Tree Ferns for use in decorative purposes, and, though appearing very soft, is in fact very hardy, as has been demonstrated by the leading decorators in all the Eastern cities, succeeding admirably as a house plant, which is not the case with any other Tree Fern. It possesses a graceful and delicate appearance that is found in no other plant. It is a variety that is always scarce and difficult to obtain. We have succeeded in growing a fine lot of this variety, and offer beautiful decorative plants of it.

5-inch pots,	75 cts. each;	\$ 7.50 per doz.
6 " " "	\$1.25 " "	12.00 " "
7 " " "	1.50 " "	15.00 " "

Microlepia Hirta Cristata.

We consider this one of the finest Ferns in cultivation to grow into specimen plants, and while it is of such a delicate, graceful appearance, that would lead one to think that it was useless as a house-fern, it is, nevertheless, one of the best for this purpose, and when well grown, meets with as ready sale as the popular Boston Fern. It is seldom that we are in a position to offer it in quantity; this season our stock is exceptionally large, which enables us to offer it at the following low prices:

2 1/4-inch pots,	75 cts. per doz.;	\$ 6.00 per 100.
3 " " "	\$1.25 " "	10.00 " "
4 " " "	2.50 " "	20.00 " "

ADIANTUM FARLEYENSE.

Adiantum Caudatum and Adiantum Dolabriformis.

Two pretty species especially adapted for baskets. They are of a peculiar creeping or drooping habit, with long fronds, at the ends of which young plants are produced.

3-inch pots,	\$1.00 per doz.;	\$8.00 per 100.
--------------	------------------	-----------------

Adiantum Farleyense.

Nice, young, thrifty stock for growing on.

BEGONIA GLOIRE DE LORRAINE.

NEW BEGONIAS.

Gloire de Lorraine. Undoubtedly the greatest gem in winter flowering Begonias yet introduced. It grows from 12 to 15 inches high, forming naturally graceful bushy specimens, which from October to April are completely smothered with soft rosy-pink flowers. It is an especially valuable plant for the holiday season. Plants less than 10 months old having been sold in 6-inch pots in the eastern cities last Christmas at from \$5.00 to \$10.00 each.

2 1/4-inch pots, \$1.50 per doz.; \$10.00 per 100.

3 " " 2.00 " 15.00 "

4 " " 4.50 " 35.00 "

Light Pink Lorraine. This is a sport from Gloire de Lorraine with flowers of a lighter and possibly more pleasing shade of pink. The plant is of a decidedly stronger growth, and florists who have handled it last winter claim that it is hardier and holds its flowers better under unfavorable conditions than the original type.

2 1/4-inch pots, \$2.00 per doz.; \$15.00 per 100.

3 " " 3.50 " 25.00 "

4 " " 5.00 " 40.00 "

Dwarf Lorraine (*nana compacta*). This is of more compact habit than the type and holds its flowers more erect; very desirable.

DREER'S DOUBLE FRINGED PETUNIA.

Dreer's Double Petunias.

Our strain of Double Petunias is too well known to require special description. For many years this has been one of the specialties of our establishment, and again this season we have grown many thousands of seedlings from which our collection has been selected, embracing only such distinct fringed varieties and colors that are especially suited to the retail trade.

We offer strong 3-inch pots, in 15 distinct varieties, \$1.00 per doz.; \$8.00 per 100; the set of 15 varieties, \$1.25.

Dreer's Double Fringed Petunia Seed.

This we save on our own grounds, and is without doubt the finest stock of double Petunia seed in existence.

Per 1000 seeds, \$1.50; per 500 seeds, 75 cts.

Dreer's Single Fringed Petunia Seed.

Also saved by ourselves from the finest large-flowering fringed varieties. Trade pkt., 50 cts.; 1/8-oz., \$2.50.

Hardy Plants for Decoration and Forcing

Hardy Azalea Mollis

(For Forcing)

These varieties have for many years been very popular for forcing in Europe, and have in recent years met with considerable favor here in the United States, and when better known are certain to gain in popularity, especially for early forcing.

We are handling the stock of one of the most successful specialists, and can supply fine bushy plants, 12 to 15 inches high, finely set with buds, \$4.50 per dozen; \$35.00 per 100.

Deutzia Gracilis

A fine lot of 3-year old plants suitable for 7 and 8-inch pots, very bushy, \$1.00 per dozen; \$8.00 per 100.

Deutzia Gracilis Rosea (New)

Identical with the above in general habit, but with flowers fully double the size of that graceful variety, to which is added the additional charm of being suffused with a delicate rosy tint, just sufficient to relieve the dead white which is objectionable in the type, and which will undoubtedly place it in the front rank of shrubs for winter forcing. A limited lot of one year old plants, \$2.00 per dozen; \$15.00 per 100.

Deutzia Lemoinei

This is now one of the standard varieties for forcing. It surpasses *D. Gracilis* in its very large flowers, being nearly three times the size of the latter variety. These are produced in large cone-shaped heads of 20 to 30 flowers each, and of the purest white. We are carrying the largest stock of these in the country, and offer extra heavy two-year-old plants suitable for 7-inch pots, \$1.25 per dozen; \$10.00 per 100. Strong one year old plants suitable for 6-inch pots, 75 cents per dozen; \$6.00 per 100.

Lilacs for Forcing

We offer a fine lot of pot-grown plants, finely set with buds, in excellent condition for forcing.

Charles X. Red	} \$6.00 per dozen;
Marie Legraye. Single White	
Mad. Lemoine. Double White	

Rhododendrons (For Forcing)

An extra fine lot of shapely plants well set with buds, in the most desirable varieties for forcing. A grand lot 18 to 24 inches high, \$12.00 per dozen; \$90.00 per 100.

THREE FINE NOVELTIES for 1901

Montbretia Crocosmiæflora "Germania"

This new Montbretia has been under our observation for the past four years, when it first originated, and we can fully endorse the originator's description which follows herewith:

"This splendid acquisition is the result of a cross between *Crocossia aurea imperialis* and some varieties of Montbretia. Having inherited the vigorous growth of the Crocosmias it, however, produces no off-sets which characterize the Crocosmias, but possesses the dwarf and bushy growth of Montbretia *Etoile de Feu*. It grows about 3½ feet high, is of sturdy habit, much branched and produces most graceful spikes in the greatest profusion. They are well furnished with large six-inch petalled, widely expanded flowers, measuring over three inches across, probably the largest of the genus. The color is a rich glowing scarlet shading to brilliant orange, with a blood-red throat. The buds and also the reverse of the petals are blood-red, a most striking combination of colors, making a grand effect."

Nothing can excel the great display this novelty produces when planted in masses, while as a summer cut-flower it is invaluable.

New Hardy Giant Primrose

(*PRIMULA VERIS SUPERBA*)

This is one of the good new things that occasionally turn up by chance. The plant originated a few years since in a batch of seedling Polyanthus, and apparently is a hybrid Primrose, having somewhat the growth of a Polyanthus combined with the yellow color and fragrance of the English Primrose.

In size of flower, it is fully three times as large as any hardy Primrose known to us, the average size of the flower being over one inch, and we have seen them frequently measuring over two inches with individual fringes of bloom six inches in diameter. It is perfectly hardy, grows from 10 to 12 inches high, and begins to flower earlier and continues in bloom longer than any other plant of the same kind known to us.

This alone is sufficient to insure its popularity as a plant for the garden, but its great merit comes in the fact that it is not only one of the easiest plants we know of to force, but a plant that will set on root when forced into flower during the winter and early spring months, and especially so when grown as an *Evergreen*.

The plants can be stored in cold frames, successive batches being brought into a cool greenhouse to flower as required, allowing about four to five weeks time to bring them into full bloom. \$1.25 per doz.; \$10.00 per 100.

Yucca Filamentosa Bicolor

Yucca is familiar with the common *Yucca* or Adams Needle, a plant with evergreen foliage and tall spikes of creamy white drooping, bell-shaped flowers, which are produced in the greatest profusion during mid-summer. In the variety here offered is added the additional charm of beautiful variegated foliage, the leaves being longitudinally striped with creamy white. 35 cts. each; \$3.50 per doz.; \$25.00 per 100.
